

Protect your Assets

Button Ink Pin™

The Button Ink Pin provides a visual deterrent for would be thieves in a smaller tag size. The tag displays liquid Ink inside of one central vial. The tag relies exclusively on its visual deterrent capability to prevent shoplifting and will not set off an alarm of any Electronic Article Surveillance (EAS) or anti-theft antenna.

Using a simple clutch you can secure the merchandise, or you can turn the Button Ink Pin into an alarming tag by combining it with an alarming anti-theft EAS tag such as the Pencil tag.

Specification
