WiFi Door Guard

Elegantly Aesthetic

Effective Protection Conserves Space

Diamond Door Guard is ideal for entrances where minimal space is available. This antenna is effective and yet impresses with its clean lines. Easily attaches to the door frame and even on glass. Available in gray, black or white.

Advanced signal processing technology with patented noise cancellation provides unparalleled performance.

The system software can be optimized to your selection of ferrite hard tags or labels.

Jammer detection and **remote access** for quick support response are standard on all WiFi systems.
